ABOUT ME

A passionate AI/ML engineering student with a vision to **"Build technology that trains humans to stay human."** I combine creative problem-solving with technical expertise in full-stack development. My strength lies in leveraging AI tools efficiently to accelerate development and maximize productivity. Currently exploring the intersection of artificial intelligence and human-centered design.

EDUCATION

Bachelor of Engineering in AI & ML — 2024 – 2028

St. Francis Institute of Technology (SFIT)

Currently in Year 2, Semester 4 • Mumbai, India

- Specializing in Artificial Intelligence & Machine Learning
- Coursework includes Data Analysis, Machine Learning, and Programming
- Active participant in tech seminars and Google Developer Groups (GDG) events

TECHNICAL SKILLS

FRONTEND DEVELOPMENT

React, TypeScript, JavaScript, HTML5, CSS3, TSX/JSX

BACKEND DEVELOPMENT

Go, Node.js, REST APIs

AI/ML & DATA

Machine Learning, Data Analysis, Python, Jupyter

MOBILE DEVELOPMENT

Kotlin, Android

TOOLS & WORKFLOW

AI-Assisted Development, Git, GitHub

CORE STRENGTHS

- Active participant in tech seminars and Google Developer Groups (GDG) events

FEATURED PROJECTS

MindRafta

PROJECT LEAD

AI-Powered Learning Copilot

Led the development of an intelligent learning assistant designed to enhance the educational experience through AI-driven personalization and adaptive learning paths.

TypeScript | React | Node.js | AI/ML

Offshore Wind Farm Presentation

Interactive web-based presentation exploring sustainable energy solutions.

HTML | CSS | JavaScript

Canasta

Mobile application development project built with Kotlin.

Kotlin | Android

CORE STRENGTHS

- **Project Leadership** – Led development of MindRafta from concept to execution
- **AI Efficiency Expert** – Proficient in leveraging AI tools to maximize productivity
- **Problem Solving** – Creative approach to technical challenges
- **Collaboration** – Effective team player and communicator

LANGUAGES

English	Proficient
Hindi	Native
Gujarati	Conversational

INTERESTS

Guitar | AI Technology | Web Development | Continuous Learning

COMMUNITY & EVENTS

- Active participant in Google Developer Groups (GDG) seminars
- Engaged in tech community events and workshops
